Judging from recent reports the am-

entice of warfare are about played out. The

radical papers, in noticing the Kilpatrick raid,

private property. The reports from Rich-

mond are that the prisoners taken are all

to be held in iron and treated as "land pri-

soners." Other reports say that the Union

"naives" of North Carolina, in retaliation for

the hanging of some prisoners taken from

them, propose to give no quarter.

We cannot read, without a sentiment of ab-

horrence, the cool approval given both direct-

ly and indirectly to such savage measures.

Each side gathers up inflammatory orders and

incidents to arouse their adherents to a

scheme of shocking butchery. The "Yanks"

and the "rebels" are each held out as heroes,

whom it is a sacred duty to destroy, without

mercy or remorse. All that dignifies war or

justifies it is treated as cowardly leniency or

halfheartedness. Extermination, not in theory,

but in practice, is openly declared as a legiti-

mate and loyal course of action.

The Northern American, as a complimen-

tary tribute to the progress of his adver-

sary, like him to a tree, tortures and burns

him. The Federalist, to gratify a far

different passion, is equally cruel to the

radical, with no more respect for the cor-

age of his enemy or highly cultivated

of the people than he has for the

At the last meeting of the Board of Trustees

of the public schools, Prof. Grant, President

of the Kentucky Association of Teachers, re-

quested the use of the chapel of the Male

High School on the 24th day of August next

for the use of the association. The request

was promptly granted.

The Superintendent, Mr. Tinsley, in his

last report to the Trustees, made the follow-

ing remarks: In the Second Ward School there

is an average daily attendance in the male

grammar department of thirty pupils. These

are necessarily divided into three grades, and

each of the three grades of twenty-act re-

lations daily. This required two teachers, who

would have an average of but fifteen pupils

each, instead of thirty or thirty-five.

The Female Grammar Department has an

average of forty pupils, with two teachers.

Thus it requires, under the present arrange-

ment, four teachers to instruct seventy pupils.

If the boys and girls were allowed to recite

together, one assistant would be sufficient for

both departments, and the pupils of both

would be taught much better by three teach-

ers than they now are by four. If, therefore,

the classes in corresponding grades were dis-

tinguished, when the classes in each depart-

ment are too small to give the proper in-

struction, the classes in each department

of teachers to instruct them separately, and

the good would be accomplished. The Board

granted the Superintendent and Principals

discretionary power in regard to this subject.

MALE HIGH SCHOOL.—In Professor Grant's

report to the High School Committee for Feb-

ruary, eighteen students were reported as

DOWNS & BRAWNER, Proprietors.

Another week has passed without any material change to note in the livestock market at the Shelby House. The arrivals and sales have been fair and a good feeling prevailed among the traders and butchers; so that all kinds were sold as fast as they arrived. None left over unsold.

**PRICES.**

CATTLE—The receipts were only fair. The trade run better than any previous week. But few light and common were on the market. Jesse Henry, of Indiana, had 70 head of very fine bone which brought record prices averaging over \$8 1/2 per 100 pounds, gross. Also Philip Barber, of Jefferson county, Ky., had a lot of beef cattle, which were sold at \$6 1/2 per 100 pounds, gross. Shipplers bought freely and the market closed with parties anxious
